**The culinary staff at Castle Hill feels the necessity to inform our guests on the issue of mercury in seafood. Some types of seafood can contain elevated levels of mercury, which can be detrimental to the health of certain individuals. Please inquire with your server for details. Raw meat and shellfish, or products not cooked to recommended internal temperatures, can increase your risk of illness. Consumers who are sensitive to food related reactions or illness should eat only thoroughly cooked meats, poultry and seafood. If you have any food allergies, please bring them to your server's attention.*
